HERMLE EXQUISIT

Dear Sirs,

with this catalog I want you introduce you HERMLE EXQUISIT, a collection of our best clocks that we have ever built.

Hardly any manufacturer of clocks can look back to such a long company history as Hermle can. Founded in 1922, my grandfather Franz Hermle based the tradition with the development and manufacture of mechanical movements and clocks. 93 years later, the demand for mechanical clocks, especially internationally, is unbroken.

Until today, mechanical movements and clocks are manufactured at the same precision and attention to detail, as once by Franz Hermle himself. This is a tradition, incentive and commitment at the same time. Until today, the company is still family-owned and relies on the seal „Made in Germany“ to 100%.

I hope you enjoy browsing in our masterpieces of German horology.

*R. Hermle*  
Yours Rolf Hermle

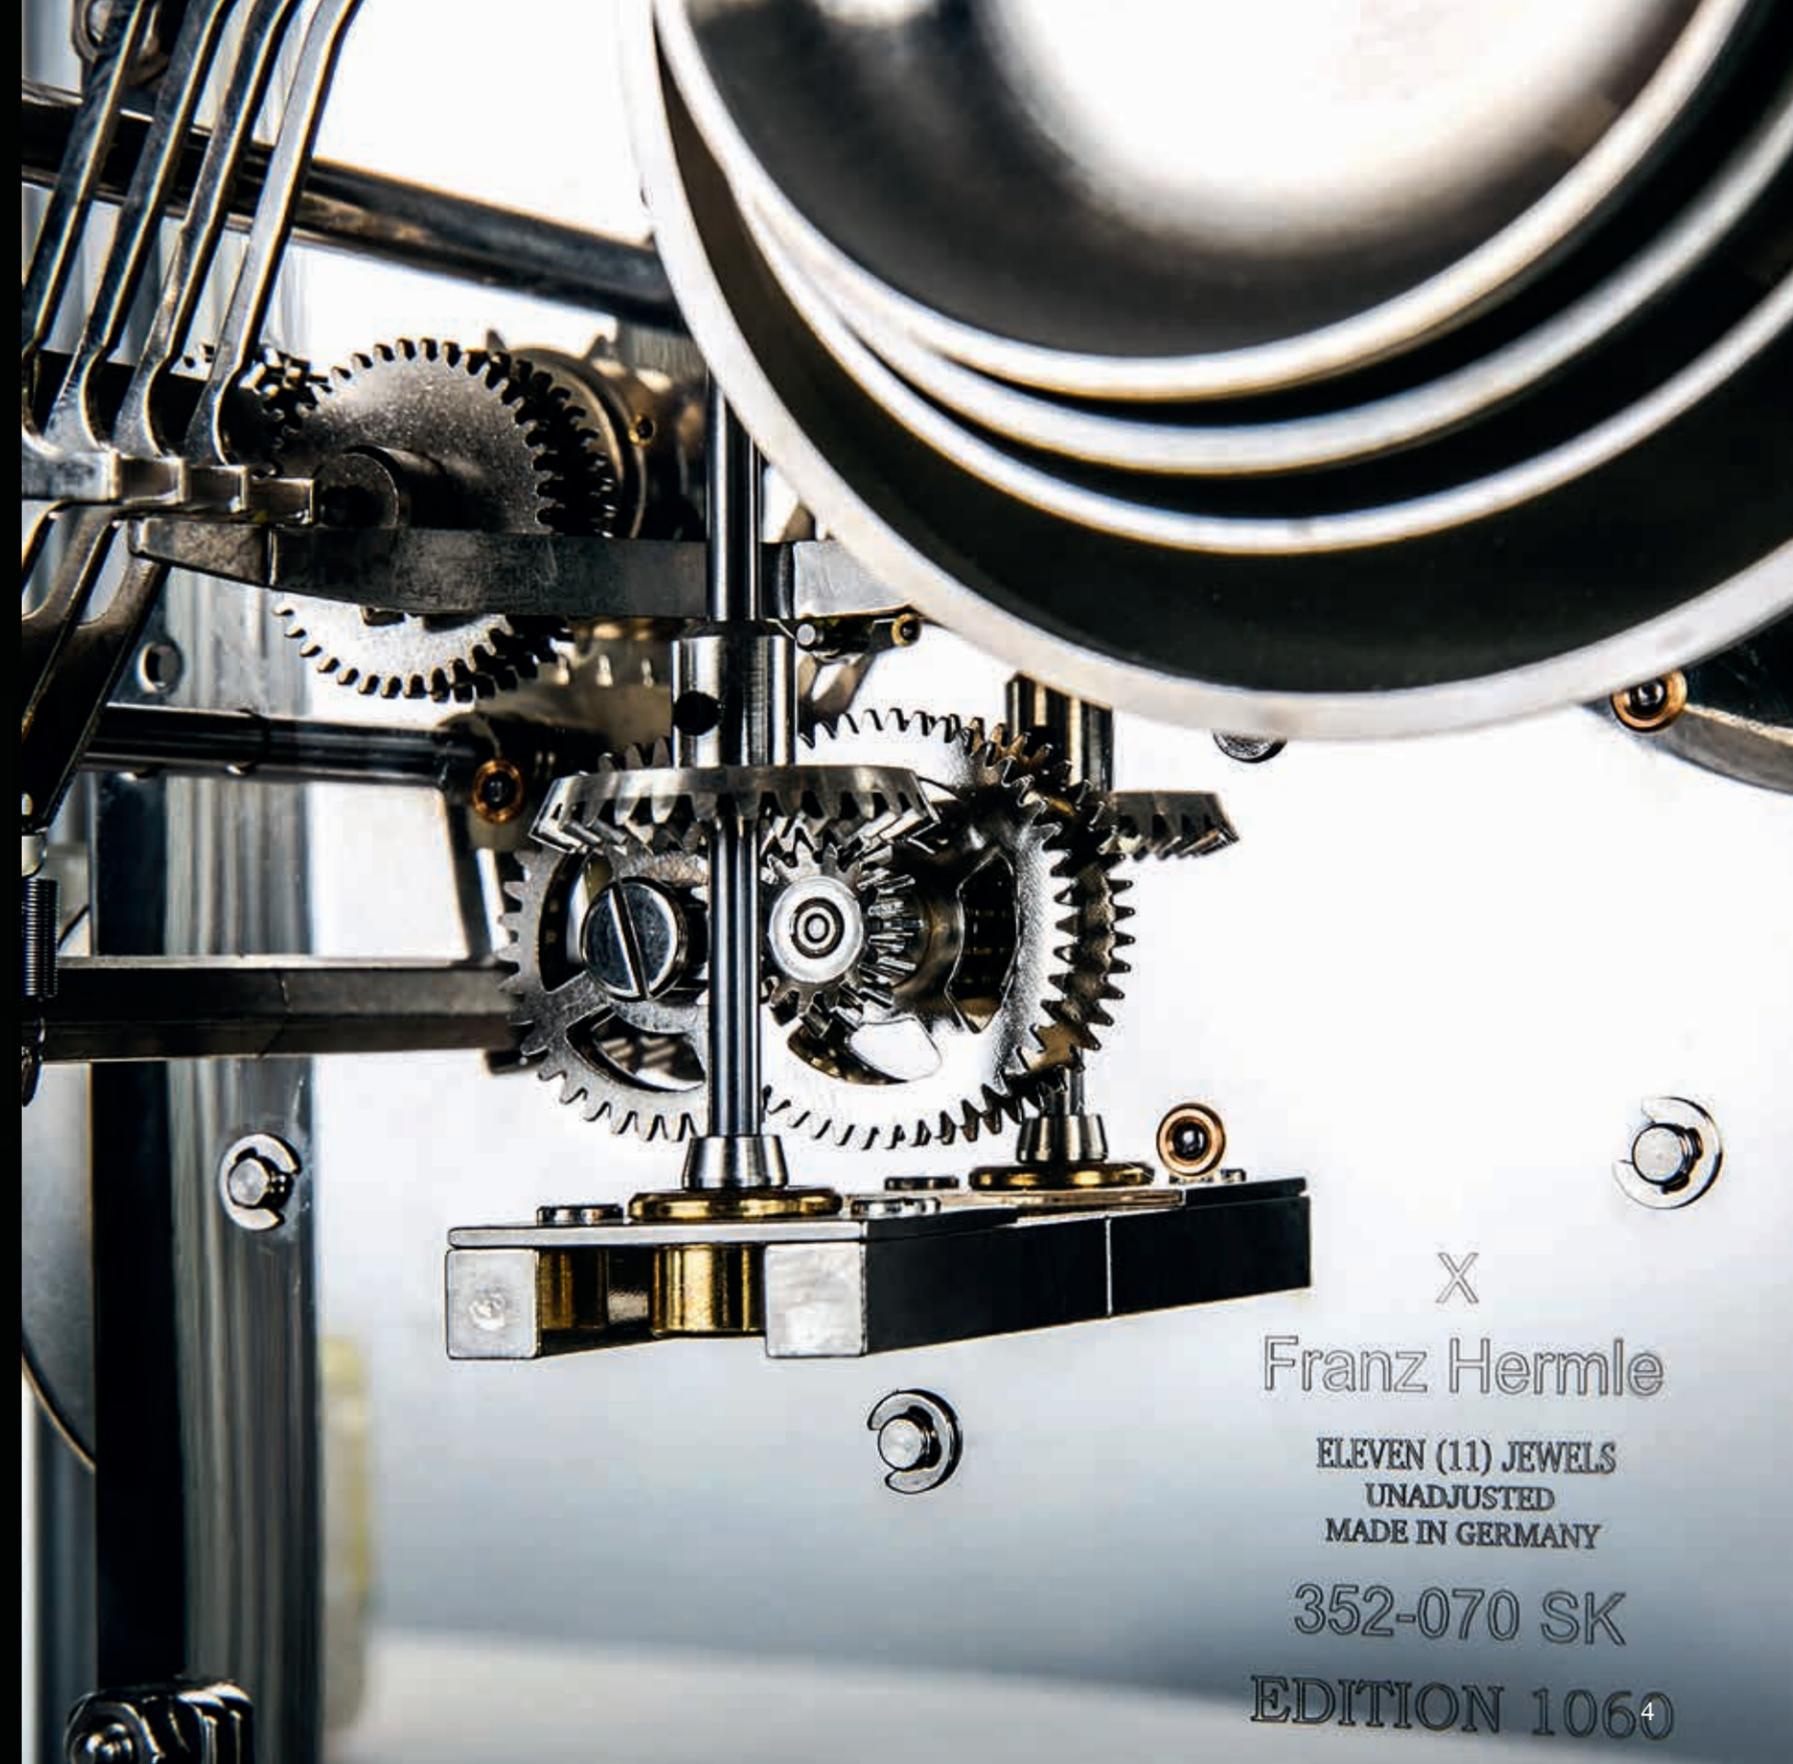

Hermle company movie

## MANTLE CLOCK

Black piano finish wood base / silverplated dial, decorated with a milled rhombus pattern / blue breguet hands / mechanical Westminster chime on 4 polished bells / 4/4 chime / 11 jewel swiss deadbeat escapement / second feature / 8 days spring round movement / automatic night shut-off / silencing lever

12" x 10" x 9"  
22801-740352 | Black

X

ELEVEN (11) JEWELS  
UNADJUSTED  
MADE IN GERMANY

352-070 SK  
EDITION 1060

## MANTLE CLOCK

Modern, elegant, piano finish Makassar wood case with bevelled crystalglass / mechanical Westminster chime on 4 polished bells / 4/4 chime / 11 jewel swiss deadbeat escapement / second feature / 8 days spring round movement / automatic night shut-off / silencing lever

The eternal calendar tells you precisely the day of the month, the day of the week, the month as well as the leap year. (This brilliant technique is functioning up to the year 2100. Only then, you will have to reset the calendar, because February 29 does not exist during this year).

15" x 12" x 9"  
 22966-460352 | Makassar  
 22966-740352 | Black

## TELLURIUM

Silverplated dial, decorated with a milled rhombus pattern / blued breguet hands / mechanical Westminster chime on 4 polished bells / 4/4 chime / 11 jewel swiss deadbeat escapement / second feature / 8 days spring round movement / automatic night shut-off / silencing lever

The Tellurium clock reproduces the annual orbit of the earth around the sun, with the earth rotating around its own axis once in 24 hours. The moon, in turn, revolves around the earth in 29.5 days completing a full rotation around its axis. This allows the reproduction of the different moon phases as they are visible from earth. In the course of one year, the earth passes all 12 zodiac signs, months and individual days which are indicated on the flat disc.

ø 12" x 14"  
22823-740352 | Black

## TELLURIUM IV

Mechanical Westminster chime on 4 polished bells / 4/4 chime / modern, classic design / 11 jewel swiss deadbeat escapement / second feature / 8 days spring round movement / automatic night shut-off / silencing lever

The Tellurium clock reproduces the annual orbit of the earth around the sun, with the earth rotating around its own axis once in 24 hours. The moon, in turn, revolves around the earth in 29.5 days completing a full rotation around its axis. This allows the reproduction of the different moon phases as they are visible from earth. In the course of one year, the earth passes all 12 zodiac signs, months and individual days which are indicated on the flat disc.

15" x 13" x 13"  
23002-000352 | Brass

## ASTROLABIUM

Quartz regulated Hermle skeleton movement with astronomic indications / mouth blown crystal dome / display: month, date, zodiac, etc.

The astrolabium clock reproduces the annual orbit of the earth around the sun, with the earth rotating around its own axis once in 24 hours and the moon revolves around the earth in 29.5 days, completing a full rotation around its axis. In the course of one year, the earth passes all twelve zodiac signs, months and individual days, which are indicated on the disc.

12" x 9" x 9"  
22836-742987 | Black

## REGULATOR

Hermle 8 day cable-driven regulator / coil gong /  
calendar (month/day/date) / moon phase / silencing lever

31" x 9" x 5"  
70650-740058 | Black  
70650-030058 | Walnut finish

## REGULATOR

Hermle Westminster 8 days cable-driven movement / 4/4 chime / made out of solid mahogany with curl veneers / automatic night shut-off / silencing lever

47 1/4" x 14 1/8" x 8 5/8"  
70743-070351 | Mahogany

## MONTHLY REGULATOR

Hermle cable-driven movement / winding period of 31 days /  
ruby pallets (see page 1) / six ruby bushings / moon phase

36" x 11" x 6"  
70978-740761 | Black  
70978-160761 | Cherrywood

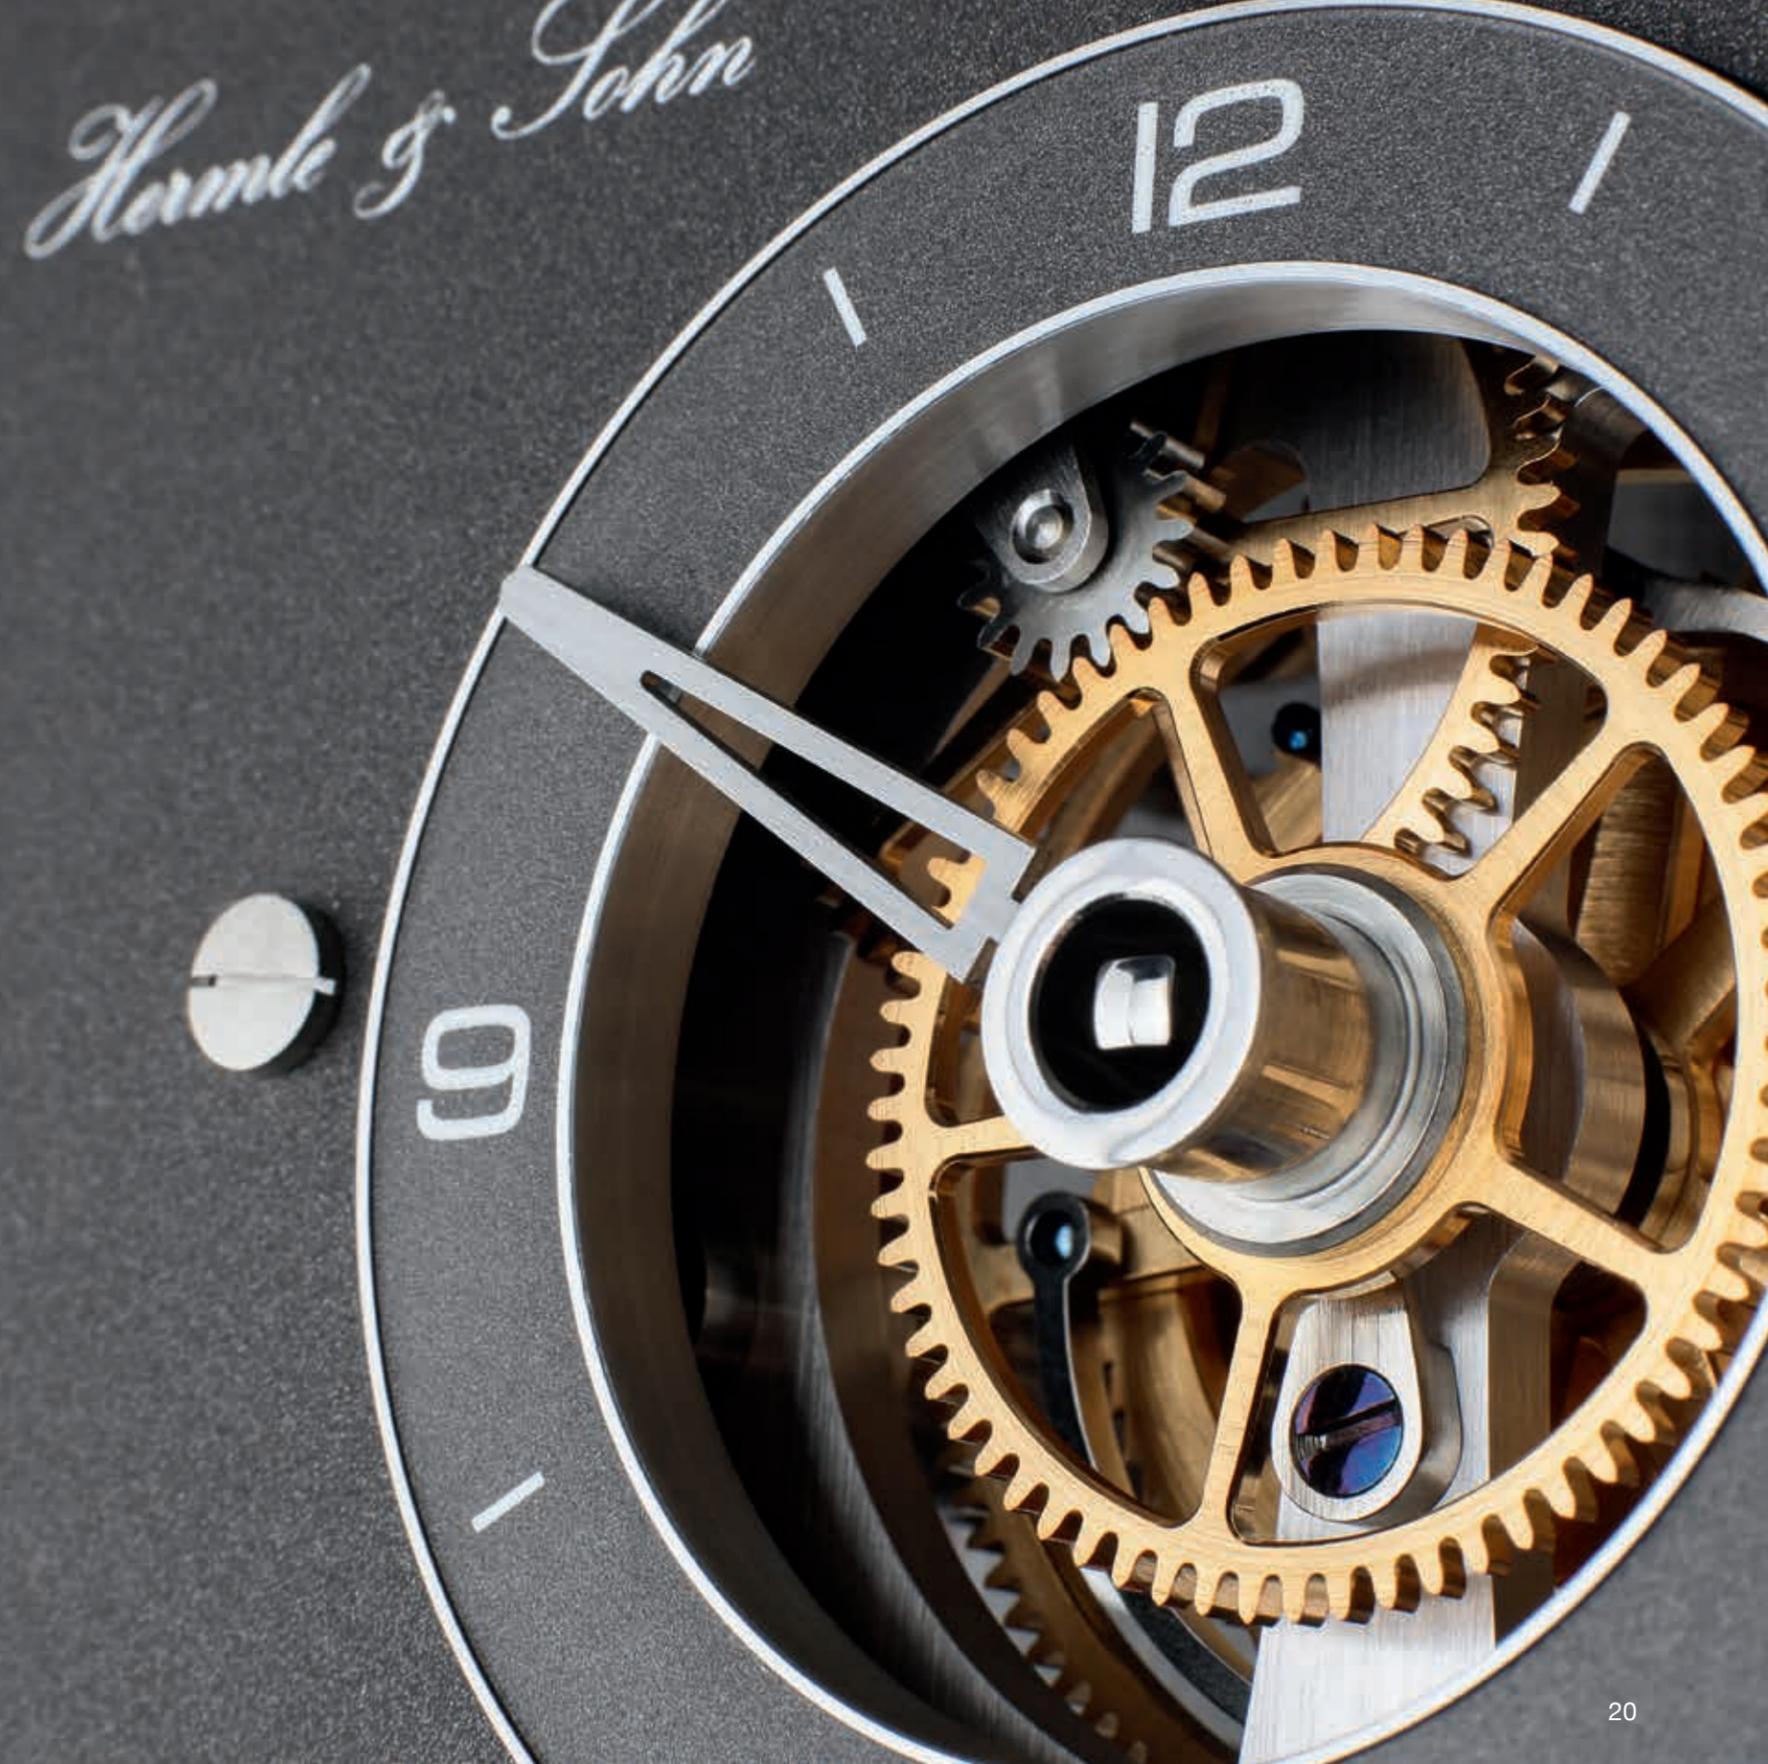

## MASTERPIECE

Limited edition of „Premium Regulator“ / high quality seconds pendulum cable-driven movement / winding period of 31 days / Graham escapement / ruby pallets (see page 1) / spindles are mounted on rubines and precision ball-bearings / ruby bearings are enclosed in bronze châtons, five of them bolted / two-piece bob with temperature compensation and carbon rod / Huygens fine adjustment / back is made from Sapeli Pommele, a rar fine quality mahogany
